

KT-3999 Universal A/C remote user guide

Product Introduction

KT-3999 is a universal A/C remote control with special and patent appearance design, which can be used to control more than 99.9% of the models of A/C in the world; with a real time clock function; with low power consumption function; complete functions, far sending distance, easy setting, comfortable hand feeling and fashionable appearance. It is an ideal choice for you.

Preparation

The product can work after installing two new batteries (AAA 1.5V). If it won't work, please re-install or replace the new batteries.

Auto-searching mode

If you don't know the brand of your A/C, or can't find the right remote control, you can use auto-searching mode to set.

1. Press "SET" button for 6 seconds, until the code on the screen changes (the remote control enters auto-searching mode).
2. Aim at the A/C, press "TEMP+" or "TEMP-" button, until the A/C turns on or off, press any button to quit and save the code.
3. Test whether other buttons (e.g. MODE, FAN...) are working well. If not, please repeat steps 1-2.

Note: In auto-searching mode, the remote control will send out codes automatically. When the A/C receives a matching code, it will emit a sound.

Manual-input code mode

If you know the brand of your A/C, you can choose manual-input code mode to set.

1. Find out the 4-digit code from the "Brand Code List".
2. Press "SELECT" button, the code on the screen will flash.
3. Press "TEMP+" or "TEMP-" button until the right code appears.
4. Aim at the A/C, press "ENTER" button, the code will stop flashing.
5. Test whether other buttons (e.g. MODE, FAN...) are working well. If not, please repeat steps 2-4.

Clock setting

1. Press the "CLOCK" button, the time on the screen will flash.
2. Press "TEMP+" or "TEMP-" button to set the right time.
3. Press "CLOCK" button again, the setting is confirmed.

TIMER ON

You can set up auto on time, which can make the air conditioner turn on automatically at the setting time.

1. Press the "TIMER ON" button, the time on the screen will flash and "ON" appears.
2. Press "TEMP+" or "TEMP-" button to set the right time.
3. Press "TIMER ON" button again, the setting is confirmed.

TIMER OFF

You can set up auto off time, which can make the air conditioner turn off automatically at the setting time.

1. Press the "TIMER OFF" button, the time on the screen will flash and "OFF" appears.
2. Press "TEMP+" or "TEMP-" button to set the right time.
3. Press "TIMER OFF" button again, the setting is confirmed.

Note

- If your remote control has "TIMER ON" and "TIMER OFF" buttons, you can set up both auto on time and auto off time at the same point.
- If your remote control has only one "TIMER" button, you can set up either auto on time or auto off time.

Attention

- If you don't use the remote control for a long time, please take out the batteries.
- If the display on the remote control is vague or shows no display, please replace the batteries.
- If the remote control can't send out signals or the air conditioner can't receive the signals, please check whether the batteries are installed correctly and whether they run out.
- Please aim at the air conditioner when operating the remote control.

Locking function

Press "▲" and "▼" buttons at the same time for 5 seconds to lock or unlock the keyboard.

Resetting

Press "▲" and "▼" buttons at the same time for 5 seconds, then press "SELECT" button to restore factory setting.

- The brand or trade mark is the property of their respective owners, this remote control is not original, it is a replacement.
